Ruben, I have included my comments here. Please post to SharePoint and use the SharePoint sharing function so we have less copies floating around.

Thanks, Fran

I updated the action item list. Comment or edit as needed.

Also, on the last call Lew Weinstock mentioned that the background EtO analysis at NAATS sites (R6r has none) will also include the Urban Air Toxics Monitoring program (UATMP) sites. **Ex. 5 Deliberative Process (DP)**

Subject: EtO update

Please update the EtO action chart. Let's add details and specifics. It will help with XA and future briefings.

Update. I talked with Kelly Rimer today to see if they had Dr. Honeycutt's effects level screening evaluation and his request for 6 month extension for comments on their tick list. They did not so I called Dr. Honeycutt. I asked if he was sure he was plugged in as needed. He said yes. Tx will PN the ELS by end of next week. He will call ORD/IRIS and OAR before hand. He said he would coordinate with us, too.
